August 2008

EXPERIENCE

FIDELITY INVESTMENTS, Westlake, TX

December 2011-Present

Manager, Procurement Analytics

- Oversaw requirements gathering, developed, and maintain the Procurement Operations Management tool, a relational database used to manage projects and workflow across the procurement organization
- Managed the Supplier Performance Management program including developing and presenting improvement plans for vendors
- Created and presented proposal to evolve the Supplier Performance Management program into a self-service product to achieve a broader scale and then developed processes and led training to accomplish this
- Compile, produce, and present monthly and quarterly KPI reports for management including analysis on potential improvements
- Develop key performance indicators and other metrics through collaboration with functional managers to help monitor and improve their teams performance
- Develop queries and reports in BI tools such as OBIEE, Cognos, and Hyperion

BELL HELICOPTER, Roanoke, TX

2011

Summer Intern, Repair and Overhaul Center

- Worked with inbound logistics and export control to increase visibility and improve order processing time
- Initiated data collection, analysis and presentation for performance reporting.
- Developed Repair and Overhaul Center repair turn-around time, and quality metrics
- Participated in 5S and visual management continuous improvement projects

FORT WORTH GASKET & SUPPLY, Haltom City, TX

2008-2010

Small manufacturer and distributor of military and commercial sealing solutions and components.

Operations & Quality Manager

- Led initiative to improve on-time delivery by 38% which was instrumental in securing additional long term contracts with the Department of Defense
- Led proposal teams and developed new toolsets used in preparing successful bid responses to RFPs for the Department of Defense and prime contractors such as Northrop Grumman.
- Managed improvements in flow of parts and information to and from warehouse operations which led to a reduction in backorders and increased productivity
- Optimized existing supply chain and implemented techniques and processes for screening and cultivating potential suppliers.
